Total number reported in Flying Classes from September 1925 to November 1931 inclusive 4,350

Total number graduates from these same classes 1,408

Percentage graduated 32.37%

NOTE—It will seem that the Training Center graduating percentage is higher for some classes than the percentage at the Primary Schools for the same classes. This is due to advanced holdovers being included in total graduated.

The low percentages in the years 1927 and 1928 are due, in some cases, to Reserve Officers and National Guard Officers graduating from Brooks Field but *not* going to the Advanced School.
